

Second Digestive Endoscopy Symposium

October 8-9, 2011

Al-Hashemi II Hall, Radisson blu Hotel, Salwa, Kuwait

The Second Digestive Endoscopy Symposium is a two-full day postgraduate course on the recent advances of digestive endoscopy and its utility in the management of related digestive diseases. The symposium will include both lectures and interactive video case presentations. This combination of state of the art lectures and unedited videos will provide an excellent opportunity for discussion and interaction between participants and international experts.

Objectives:

- Discuss indications, utility, safety and local applicability of the latest endoscopic techniques
- Compare and contrast methods for effective endoscopic management of digestive diseases
- Participate in interactive discussion to evaluate multidisciplinary plans of digestive diseases management

Intended Audience:

The Symposium is designed for gastroenterologists, surgeons, internists, oncologists, pediatricians, GPs and family practitioners, nurses and biomedical scientists

Expected number of participants: 250

Topics

Therapeutic ERCP

Diagnostic and therapeutic EUS (FNA, pseudocyst drainage, anastomosis)

Contrast enhanced and elastography EUS

Mucosal resection and submucosal dissection

Endoscopic management of Barrett's esophagus

Capsule endoscopy

Diagnostic and therapeutic endoscopy in IBD

Bariatric endoscopy

Portal hypertension-related gut bleeding

Non-variceal upper GI bleeding

Post-liver transplant endoscopy

Management of gut strictures

Endoscopy and parasitic diseases

Management of endoscopic complications (perforation, bleeding)

Image-enhanced endoscopy

Confocal endomicroscopy
